Active Learning

Social Justice Education and Participatory Action Research

Dana E. Wright, Connecticut College, USA

Series: Teaching/Learning Social Justice

While many educators acknowledge the challenges of a curriculum shaped by test preparation, implementing meaningful new teaching strategies can be difficult. *Active Learning* presents an examination of innovative, interactive teaching strategies that were successful in engaging urban students who struggled with classroom learning. Drawing on rich ethnographic data, the book proposes participatory action research as a viable approach to teaching and learning that supports the development of multiple literacies. As Wright argues, in connecting learning to authentic purposes and real world consequences, participatory action research can serve as a model for meaningful urban school reform.
